

# MOTOR GUARD®

## MINI INLINE REGULATOR DIAPHRAGM

### NEW! MHT-4300 Mini Inline Regulator

A revolutionary air control product that offers the benefits of a true diaphragm regulator in an ultra-compact, gauge-free design. Unique in its lightweight and streamlined form factor, this new regulator provides precise and convenient pressure control while adding virtually no weight or bulk.

### *Rounding out Motor Guard's line of High Tech Air Preparation Products*

Designed to provide precise regulated air from the compressor to the air tool, the MHT-4300 features a unique calibrated dial for ultra-precise control of pressure regardless of upstream conditions. Once adjusted to the desired outlet pressure, the dial is securely locked with a convenient thumb slide.

## JUST SET IT AND FORGET IT! MHT-4300

SKU: 04054

**Mini Inline Regulator Diaphragm**

**HIGH TECH** Revolutionary Air Control

**Contains:** One regulator in a retail blister card.

### Applications

Perfect for all critical applications requiring lightweight, precise, at-the-tool adjustment of pressure including:

- + Spray Guns
- + Pneumatic Tools
- + Pneumatic Applicator Guns

MODEL NO.	PORT SIZE	OUTLET PRESSURE RANGE	NOMINAL AIR FLOW	MAX INLET PRESSURE	TEMP RANGE	WEIGHT
MHT-4300	1/4" NPT(F)	0-60 PSI	30 CFM	150 PSI	40-140°F	2.8 oz.

**For best results,** air supply should be in the range of 80 – 120 psi and not subject to variations in pressure.
